

ArduPilot WIKI Session

Henry Wurzburg
ArduPilot Dev Team Wiki

Wiki Accomplishments

- > 1015 Commits since last year
- Unified structure between vehicles
- Advanced Config and Peripheral Hardware more clearly segregated
- Significant re-organization of many sub-groups
- Wiki >90% ready when 4.0 was rolled out
- Params now all hot linked...instant notification of out-dated or errorneous params in Wiki
- Over 750 build errors fixed
- Parameter versioning..Thanks Bruno O. !
- Auto build of logger messages incorporated into Wiki...Thanks Peter B.!
- Wiki build checked nightly for errors
- Most dead external links fixed

Current Projects

- Update Mission Command List
- Video additions to DEV
 - Environment setup
 - Using SITL
 - Using Realflight, etc.
- Tilt Rotor Mechanical Setup
- Update and re-org Camera/Gimbal info
